PROFESSIONAL SUMMARY

Motivated and detail-oriented Python Developer with hands-on experience in academic and personal projects. Proficient in Python, SQL, HTML, CSS, and JavaScript with a strong foundation in database design and query optimization. Skilled in developing web-based applications using Django and React.js with focus on functionality and user experience. Experienced in implementing machine learning and deep learning models with successful IEEE conference publications. Adept at problem-solving, teamwork, and delivering results through continuous learning. Certified in Python, Full Stack Development, and Oracle technologies. Strong interest in backend and full stack development roles. Aspiring Python Full Stack Developer eager to contribute technical skills to real-world projects and grow in a professional environment.

EDUCATION

- Master of Computer Applications - MCA 2023-2025
Anurag University, Hyderabad CGPA – 8.9/10
- Bachelor of Computer Science - BSC [MSCs] 2020-2023
Bankatlal Badruka College for Information Technology, Hyderabad CGPA – 8.9/10

TECHNICAL SKILLS

- Programming Languages:** Python, Basics of Java.
- Web Development:** HTML, CSS, JavaScript and WordPress.
- Databases:** MySQL, SQL.
- Developer Tools:** Git, GitHub, MS Excel, MS Word, MS PowerPoint.
- Framework:** Django

PROJECTS

Phishing URL Detection Using Deep Learning Models

- Developed a real-time phishing detection web application using 7 deep learning models (LSTM, ANN, GRU, TextCNN, Transformer, CapsNet, BERT) achieving up to 99% accuracy.
- Trained on a dataset of 23,000+ labeled URLs using Keras, with tokenization and sequence padding for model input.
- Designed a modular backend for easy integration of additional algorithms and datasets.
- Built interactive performance dashboards (Accuracy, F1-Score, Confusion Matrix) using Plotly.
- Developed a Flask-based user interface to evaluate URLs and display model-wise results.
- Research work presented and accepted in multiple IEEE conferences.

Python GUI Quiz Application

- Developed a quiz application with subject-based categorization and a clean GUI.
- Integrated a real-time timer and automatic answer submission using multithreading.
- Used SQLite database to store scores and analytics with student information.
- Implemented faculty login to add questions and view student results in real-time.
- Displayed performance with accuracy percentage, answer review, and time tracking.

PUBLICATIONS

Phishing Uniform Resource Locator Detection

Presented and published at IEEE 2025 5th International Conference on Intelligent Technologies (CONIT), Hubballi, India. Paper ID: 2633 – To appear in IEEE Xplore (Scopus-indexed)

ACHIEVEMENTS

Presented a paper titled “Phishing Uniform Resource Locator Detection” at IEEE 2025 5th International Conference on Intelligent Technologies (CONIT), Hubballi, India.

SOFTSKILLS

- Team Management
- Communication Skills
- Adaptability
- Time Management

CERTIFICATIONS

- Oracle Certification.
- Python Certification.
- Python Full Stack Certification.
- AICTE Virtual Internship – Android Developer.
